

## U.S. Census Bureau Actuality Line Weekly Update 6-11-01

The U.S. Census Bureau records brief interviews with report authors and provides soundbites for radio newsrooms and broadcast journalists on the U.S. Census Bureau audio line (301-457-1229 or 1-866-834-7322). We're hoping to have these available on the internet by mid to late June. The audio files on the internet will be of much better quality and easily downloaded in the broadcast ready mp3 format. As this service evolves, we plan to start using targeted e-mails and faxes to notify our customers.

Line 1: Older Population in the U.S./Denise Smith	available since 6/1
Line 2: Asian & Pacific Islander SMOBE/ Valerie Strang	available since 5/22
